HOLISTIC PROGRESS CARD

The Holistic Progress Card (HPC) is an individualised and holistic representation of a student's progress. This is an exemplar card based on the National Curriculum Framework for School Education (NCF-SE-2023). It is assessed twice during the academic year, once in Term I and again in Term II, and is based on classroom participation, activities, projects, and daily learning experiences. The HPC helps in identifying each child's strengths and areas for improvement, enabling teachers and parents to work together to support the child's holistic development in a positive and nurturing environment.

KEY INDICATORS

Performance Level with Code	Interpretation
Beginner (B)	Tries to achieve Competency and associated Learning Outcomes with a lot of support from teachers.
Progressing (Pg)	Achieves the Competency and associated Learning Outcomes with occasional/some support from teachers.
Proficient (Pf)	Achieves the Competency and associated Learning Outcomes on his/her own.

The Curricular goals are required to be achieved with the use of activity-based and experiential learning pedagogy by the teacher to enable learners to develop competencies.

The card is a combination of a child's own expression of self, teacher assessment, and peer assessment.
